

## THE HEART

1. Definition: The Bible takes the physical body and relates it to the soul to aid us in understanding how the soul functions.
  - A. The physical heart is an intricately woven muscle of the body which rhythmically contracts and causes circulation of the blood.
  - B. It pumps five quarts of blood in a minute; 75 gallons of blood in an hour; 70 barrels a day, 18 million barrels in 70 years.
  - C. The heart is a double pump for it has two valves, the auricle and the ventricle.
  - D. These pumps and valves in them circulate the blood in the same manner as doctrine is circulated in the right lobe of the soul.
  - E. Therefore the word “heart” is used in the Bible for that part of the soul which processes thoughts, Proverbs 23:7, “For as he thinks within himself ( heart ) so he is. He says to you, ‘Eat and drink!’ But his heart (thinking) is not with you.”
  
2. The “heart” is part of the human soul.
  - A. The Greek word, KARDIA, means the thinking part of the soul. The Bible does use the word “heart” in the physical sense only twice (both times in the Song of Solomon), but it NEVER uses the word “heart” to mean that the physical pump in our chest cavity as the place where God lives, or where our emotions reside; nor does the physical heart have any spiritual value.
  - B. The KARDIA is associated with the thinking process of the soul in Scripture, such as:

Genesis 6:5, “the thoughts of his heart was only evil continually.”  
Genesis 8:21, 20:5; 24:45; 45:26.  
Exodus 7, hardening Pharaoh’s heart means his thoughts were continually against God and Moses.  
Numbers 15:39, the heart can be discouraged.  
The Bible has numerous references like the ones above such as:  
Proverbs 2:2; 3:3; 4:4; 7:3; 14:10-14; 15:7; 16:1; 17:16; 18:2; 20:5.

- D. The heart in the soul is the place where doctrine from the Word of God resides, Proverbs 2:2; 3:3; 15:14; 18:15; Psalm 119:11, 161 and Job 38:36.
